WOODS HOLE, MASS.

**SPECIAL SCIENTIFIC REPORT-FISHERIES No. 240**

**UNITED STATES DEPARTMENT OF THE INTERIOR  
FISH AND WILDLIFE SERVICE**

## EXPLANATORY NOTE

The series embodies results of investigations, usually of restricted scope, intended to aid or direct management or utilization practices and as guides for administrative or legislative action. It is issued in limited quantities for official use of Federal, State or cooperating agencies and in processed form for economy and to avoid delay in publication.

United States Department of the Interior, Fred A. Seaton, Secretary  
Fish and Wildlife Service, Arnie J. Suomela, Commissioner

SELECTED REFERENCES ON THE CHANNEL CATFISH,  
ICTALURUS PUNCTATUS

by

Carl D. Riggs  
University of Oklahoma  
Norman, Oklahoma

"This work was financed by the Bureau of Commercial Fisheries Under Contract No. 14-19-008-2382, with funds made available under the Act of July 1, 1954 (68 Stat. 376), commonly known as the Saltonstall-Kennedy Act."

Special Scientific Report--Fisheries No. 240

Washington, D. C.

February 1958

Selected References on the Channel Catfish,

Ictalurus punctatus <sup>1/</sup>

In compiling this list of references I have not attempted to include all literature on the channel catfish, but only those references that contribute to the knowledge of the natural history of this species, particularly its reproduction. Faunal lists and statements of local or regional distribution were deliberately omitted. Unintentionally, important references may have been omitted, and I will be grateful to any reader who indicates such omission.

I am deeply grateful to Dr. John Van Oosten, U. S. Fish and Wildlife Service, Ann Arbor, Michigan, for making the card file of his and the Fish and Wildlife Service libraries available to me for this compilation.
